## **About Marorka**

Marorka is the leading global provider of data-driven energy management solutions for the maritime industry. We enable our customers to reduce fuel consumption, cut emissions and increase fleet performance. Our data-driven systems can lead to significant financial savings.

Our fuel management and energy management systems incorporate real-time monitoring and decision support, essential components of any operational optimization process.

Our highly educated professionals ensure that we demonstrate our ability to present innovative, economical and environmentally friendly solutions to the maritime market. Marorka operates according to a quality management system built on the ISO 9001:2008 standard and certified by DNV-GL.

Marorka's combined onboard/onshore systems have been installed on more than 500 vessels, helping vessel operators all over the world to reduce fuel consumption and maximize energy efficiency.

Our headquarters are in Reykjavik, Iceland, our European regional office in Copenhagen, Denmark. Our worldwide network covers offices in Singapore, Greece, Korea and United Arab Emirates.
